WORK EXPERIENCE

Web Developer, Skeltron Info Solutions

10/2024 – 11/2025

- Successfully developed and maintained informative and e-commerce WordPress websites for diverse clients, ensuring high-quality deliverables and client satisfaction.

- Designed and implemented CMS-based solutions for easy content updates, improving operational efficiency.

- Collaborated with cross-functional teams to gather requirements and deliver customized web solutions.

- Utilized essential plugins to enhance website functionality, including SEO, security, and performance tools.

- Executed digital marketing activities such as running Google Ads campaigns, performing on-page SEO, and managing social media creatives and post schedules.

- Assisted in optimizing landing pages and blog content to improve visibility, user engagement, and lead generation.

CERTIFICATES

- JAVA - FULL STACK WEB DEVELOPMENT From Pro Stack Academy , Marathahalli , Bengaluru.

- FUNDAMENTALS OF FULLSTACK WEB DEVELOPMENT From ExelR.

PROJECTS

1. Portfolio Website – https://webwithchethanr.com/

Designed and developed a personal portfolio website to showcase WordPress projects and skills.

Tech Used: WordPress, Elementor, HTML, CSS, jQuery, Responsive Design

2. Projects at Skeltron Info Solutions

As a WordPress Developer at Skeltron Info Solutions, I have independently handled the end-to-end development of multiple websites — from design and customization to deployment and optimization.

Some of the key projects include:

➢ https://shunakaskingdom.in/

➢ https://sasquarehomes.com/

➢ https://arbour.in/

➢ https://graintecindustries.com/

➢ https://thecradlecare.com/

3. **Academic Project – Production Quality Control System**

Web Application – HTML, CSS, JavaScript, jQuery, PHP, MySQL

Developed a web-based system aimed at streamlining quality control in a production environment.
The application allows users to manage product specifications, track defects, and generate quality reports.
Key features included user authentication, real-time data capture, and an intuitive interface for admins and operators.
The project focused on ensuring usability, functionality, and clear data representation.

INTERNSHIP AND EXPERIENCE

- Internship with project (FULLSTACK WEB DEVELOPMENT)(as a final year project) at Like Minds Pvt Ltd , Mysuru .
